A horizontal row of 12 identical rectangular tiles. Each tile is divided into two triangles by a diagonal line from the top-left corner to the bottom-right corner. The tiles are arranged side-by-side.

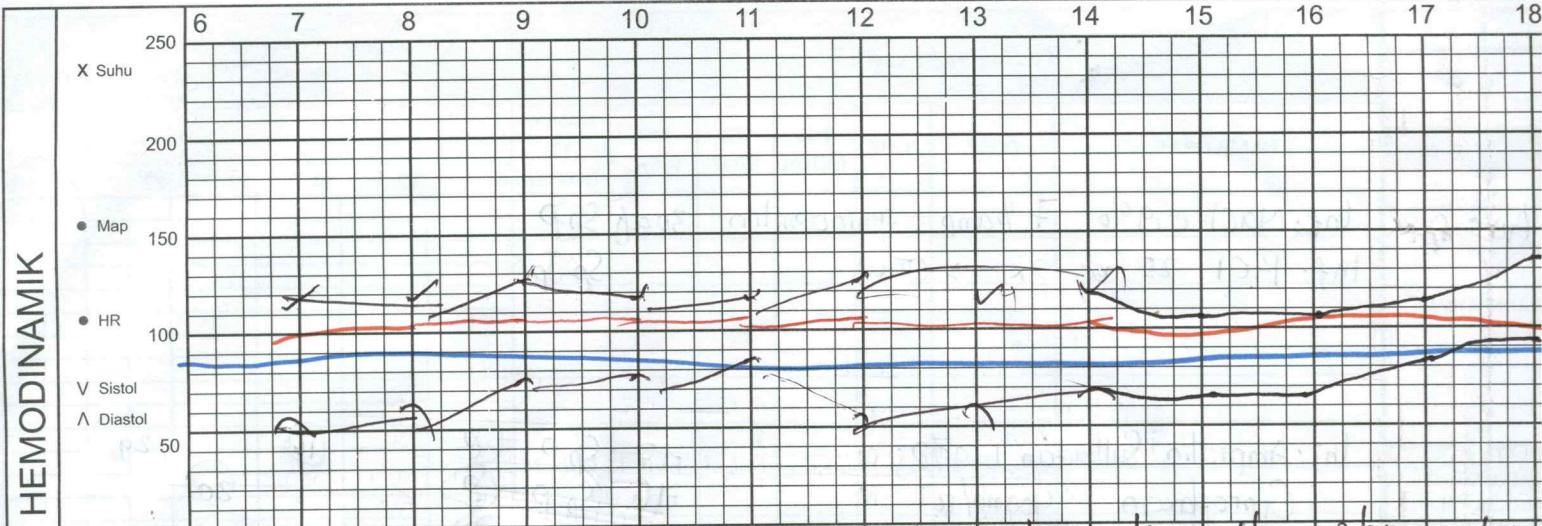

A horizontal strip divided into 12 equal squares. The first square contains a small triangle pointing down and left. Subsequent squares contain larger triangles pointing right and up, with each triangle's height increasing by one unit as it moves across the strip.

30 30 30 30 30 30 30 30 30 30 30 30 30

A horizontal strip consisting of 15 adjacent squares. Each square contains a diagonal line from the top-left corner to the bottom-right corner.

A horizontal row of twelve small, identical triangular flags, each featuring a thin diagonal line from the top-left corner to the bottom-right corner.

The image consists of two horizontal rows of geometric shapes. The top row contains ten small triangles pointing to the right. The bottom row contains ten small rectangles pointing to the right.
